

Tanisq Pandey

Product Design Intern

✉ tanisqpandey1@gmail.com 🔗 Portfolio Link  LinkedIn

PROFILE

- Product Design Intern focused on UX research and interaction design
- Skilled in translating user insights into wireframes and high-fidelity prototypes
- Built 3+ end-to-end projects with validated user flows and usability improvements

EXPERIENCE

Graphic Design Intern

Designed visual assets and UI elements for clients, focusing on brand consistency, layout, and visual clarity.

Product Designer (Collaborative Projects)

Collaborated with developers and creators to design end-to-end user flows and refine product interactions.

PROJECTS

CypherConnect

Designed a community platform for emerging artists enabling discovery, collaboration, and open mic exploration. Integrated AI-powered vibe matching and streamlined user flows to improve engagement and discoverability.

AI Agency Webapp

Designed a web experience for an AI agency focused on clear service communication and trust-building. Structured information architecture and wireframes to enhance usability and navigation clarity.

Spotify Fitness Feature - Tempo Sync

Conceptualized a feature syncing workout tempo with music beats to enhance fitness experience. Designed intuitive user flows and validated interactions through rapid prototyping.

EDUCATION

Bachelor of Design (B.Des) , DIT University
